Activity Monitoring Report

Project	Riverside Mall Expansion
Location	Islamabad
Period	07 May 2026 to 14 May 2026
Generated	14 May 2026, 23:58 PKT
Activity Score	20 / 100 — CRITICAL

Executive Summary

Activity monitoring recorded **1 data snapshots** over the period 07 May 2026 to 14 May 2026. Average motion intensity was **0.0 / 100** with an active worker ratio of **0.0%**. No activity alerts were raised during this period.

Metric	Value
Average Motion Intensity	0.0 / 100
Average Active Worker Ratio	0.0%
Peak Active Minutes	1
Peak Idle Minutes	0
Longest Idle Period	—
Total Activity Alerts	0
Activity Efficiency Score	20 / 100 — CRITICAL
Data Snapshots Recorded	1

Activity Efficiency Score Breakdown

The Activity Efficiency Score is a composite metric (0–100) derived from four weighted components that together reflect the quality and consistency of site activity during the reporting period.

Component	Weight	Raw Score	Contribution
Motion Intensity	40%	0.0 / 100	0 pts
Active Worker Ratio	30%	0.0%	0 pts
Alert-Free Rate	20%	100%	20 pts
Stability Bonus	10%	0	0 pts
Total Score	100%	—	20 / 100 — CRITICAL

Alert Type Breakdown

No activity alerts recorded in this period.

Zone State Distribution

Zone State	Snapshot Count	% of Time
Active	1	100.0%
Low Activity	0	0.0%
Idle	0	0.0%
Alerted	0	0.0%

Per-Zone Performance Breakdown

Zone	Avg Motion Intensity	Avg Active %	Peak Active Min	Peak Idle Min	Alerts
A	0.0	0.0%	1	0	0

Per-Camera Summary

Camera	Zone	Avg Motion Intensity	Avg Active %	Alerts
Ranger 2 Pro	A	0.0	0.0%	0

Daily Activity Timeline

Period (PKT)	Avg Intensity	Avg Moving	Avg Idle	Avg Total	Dominant State
13 May 2026	0.0	0.0	0.0	0.0	Active

Complete Activity Alerts Log

No activity alerts in this period.

Recommendations

1. Average motion intensity is below 30/100, indicating consistently low site activity. Consider reviewing staffing levels or shift schedules for the monitored zones.

2. Less than 40% of detected workers were actively moving on average. Review task assignments and identify zones where idle clustering occurs.
